Section 3A: Attention-Deficit/Hyperactivity Disorder

Attention-Deficit/Hyperactivity Disorder (ADHD)

To request accommodations for ADHD, the current level of impairment and resulting functional limitations must be clearly documented, as well as the history of those impairments and limitations. **Documentation must include a letter on official letterhead, signed by a psychiatrist, medical doctor, or psychologist who specializes in the diagnosis of ADHD, stating the diagnosis of ADHD and providing supporting diagnostic evidence of this disability. This documentation is considered current if completed within 3 years from the date of application to GEDTS.**

Diagnostic evidence may include a developmental history that defines symptom onset, as well as the results from a specific test of attention such as the TOVA Gordon Diagnostic Battery or the CPT (Connors' Continuous Performance Test).

Information presented must clearly document how the ADHD substantially limits the candidate's current ability to take the GED Tests under standard conditions, and identify the accommodations that are requested in light of those limitations. Further, the documentation must confirm that the ADHD symptoms are not due to other emotional/mental health factors. A DSM-IV diagnosis must be included with the certifying professional's or advocate's signature attesting to the diagnosis of ADHD.
